- Gen. Huerta and three former Mex ican generals and two members of his personal staff arrested here yesterday on charges of conspiracy to violat American neutrality laws remained in jail here tonight, says an El Paso Texas, dispatch of Sunday. Apparent ly no effort was made today to pro vide bond for their release. Huerta attorneys conferred with him at the jail but no one else was permitted to It is understood an effort will be made to get bonds for the men Tuesday. Whether last week's de-velopments mean the abandonment of a new revolutionary move has created a division of opinion even among Huerta's adherents. Certain persons close to Huerta, says his arrest merely has delayed action, but others say that any organization move has been indefinitely postponed. That Pascual Orozoo, who escaped from his guards Saturday has reached Mexico is conceded. Only a half-hearted search was conducted on this side today. Orozco is reported to have joined a sma party of his followers east of Juarez and from his camp across the river to have summoned his partisans to join him in an attempt to wrest Juarez

-A rough census of war workers says a London dispatch, has revealed approximately 3,000,000 are employed, directly or indirectly, in furnishing supplies for the British army and navy and for the other allies. Of these, more than 1,000,000 are engaged in shipbuilding, engineering and making of munitions. It is estimated that fully another million can be employed on this work, and it is proposed to provide the necessary plant for this number at least. The advisers of the government are of the opinion that if trade union objections can be overcome, not much difficulty will be experienced in obtaining this extra million of workers. On this assumption the government is content to rely on voluntary labor for the present, but if it should be found that, after a reasonable period, their hopes are no fully realized, the government will take any action necessary to recruit the full complement. Once the plant is mobilized, it is intended to employ it to the fullest capacity; and labor must be found for this purpose, regardless of opposition from any quarter. Trade union leaders concerned are now in doubt regarding the intentions of the government, and they are trying oth over the difficulties in order to avoid compulsion.

YORKVILLE, S. C.:

TUESDAY, JULY 6, 1915

All of the members of the State Press association think highly of those Spartanburg and Greenville newspaper men everywhere; but when the association meets near Spartanburg or Greenville the local editors show up at their best.

Mr. W. P. G. Harding, chairman of the Regional reserve board, is very much afraid that there is going to be another congestion of cotton stocks this fall, and is endeavoring to perfect plans that will obviate a recurrence of last year's financial troubles. From what has developed so far, it is evident that if South Carolina provides herself with a sufficiency of state warehouse space, she will get the best of what is going.

The editor of The Enquirer does not hesitate to testify that Chick Springs is a fine place to spend a summer vacation. As to the virtue of the water he is unable to testify except to a limited extent; but its reputation is good. The new hotel, how ever, is easily one of the finest and best appointed to be found at any southern watering place, and Manager fication of an ideal host. The meming pleasantly of everything connected with their stay.

Messrs. Ed H. DeCamp and W. F Caldwell, president and secretary of the State Press association, have both made good and given the members profitable and enjoyable meetings The meeting of last week, from start to finish, ranks well up with the best that have so far been held. Mr. De-Camp could not be re-elected because lish a reasonable presumption of have had a real good sleep and you of the constitutional limitation of two terms, and Mr. Caldwell declined re-election, because he claimed he of bacon were shipped, an increase of had served long enough, a rather poor 122,000,000 pounds. "Believing it is the duty of the newspaper to protect the readers rom deceptive and fraudulent adver-ising, the Medical Association of South Carolina resolved that it would request every newspaper in the state of South Carolina to accept no medical advertising that is antagonistic to public welfare, or which is undeniably fraudulent or deceptive.'

Although the doctor said his say, i was without any result in creating cr developing sentiment and the say may as well not have been said. There is far as the newspaper men are concerned, and that feeling is against the attitude of the medical association; but owing to the peculiar circumstances there was no expression. It was has the governor to say these comlik theis: A request had been made in granted by a unanimous vote. The matter had been postponed to the last business meeting, and as this was crowaed with routine matters, the and it is just as wrong to pack a box doctor's address was postponed to the evening banquet. There had medical advertisement since the establishment of The Enquirer, and we Washington the day before and Holt have turned down hundreds if not was responsible for this also. Holt thousands of medical advertising propositions, some because we would not be willing to run the copy involvanswered the door bell, and pushed ed; but most of them because the Mr. and Mrs. Morgan would-be advertisers wanted more ceedingly doubtful as to whether he than we were willing to give them for

The police put Holt tors who feel that the resolution says hrough a severe grilling and brought what it means. The majority of the editors construe the doctors as say-

ing something like this: "Here, you newspaper men, these medical advertisements you are running are interfering with our business These shrewdly written advertise-ments of cure-alls convince many of your readers that they can spend 25 cents for a patent medicine that will do them as much good as a half a dozen visits from a doctor at \$2 per visit. It is costing us money, and we vant you to stop this kind of thing so as to give us more complete control

were participating in murder just cepting the doctors. It costs money to run newspapers, and one of the most age and is highly educated. He disrevenue is dependent on advertising The doctors are for some reason dead against advertising, more particularly all kinds of paid advertising, and therefore their teaching and their preaching strikes at the foundation support of the newspapers. The newspaper man can see no reason in the orld why if one doctor is better than another, knows more than another, and all that, he should not make the fact known just as other people do. The newspaper man does not believe that a simple diploma and license makes a doctor; but he does believe hat inhibition against advertising imposes upon the public many a mutt who, if exposed to the light of publicity, would have to take up a differ-ent line of business in order to earn livelihood. Now, no newspaper man un at least a professional card or omething like that in order to keep imself before the public and to dis charge some of his obligations to the newspapers. And every newspaper man feels that if all the doctors would run professional cards in their repective county papers, the newspaper men would feel a great deal less like helping to bring in against them the competition of patent medicines and the like, and also all feel that if it were necessary to do so under such circumstances, the State Medical asociation could come with much bet ter grace with a request to the edi-tors not to print any kind of a patent

nedicine advertisement.' A few words personal in conclusion. We have not butted in in this matter. Except for the letter of Secretary Hines and his speech, we would not have had a word to say. What we have said expresses the views of scores of newspaper men, including our own views. We have had many a doctor to tell us something like this: "I like The Yorkville Enquirer because it is not filled up with patent medicine advertisements." This has not influenced our policy in the least. We are governed solely by what we conceive Sheriff Quinn because of their success right; but since the doctors have moved in the presentation of their view, newspaper men, and of course if anybody sees proper to dissent from the view we have expressed, whether doctor or newspaper man, it is up to them to do so.

Wednesday night in furtherance of a tive information to that effect; but from President Fairfax Harrison, exright to use his discretion in the enforcement of laws according to whether he does or does not like those laws. A grand juror who refuses or neglects to return a true bill in a case ganization we have come out of where a true bill should be returned, perjures himself. There are plenty of people in Charleston who realize these facts, and who can be depended upon to do their duty. The proportion of such people is as great in Charleston as in any other county in the state. Only such men are properly eligible to jury service, and only the names of such men should be put in the jury box. We believe the Charleston jury commissioners know who these men are and that it could make up the box with such names if it really wanted to

do so. But now comes the problem that confronts the governor, and the point upon which he is liable to be criticised -not only criticised but criticised in a way that will hurt. "What right missioners are not honest-by what rule can he declare the jurors he wants them to select are any better than the jurors they do select? The packing of a jury box is the most pernicious practice a man can engage in, to convict a man as it is to acquit him. What right has the governor to ask

these men to pack a jury box?" All this argument is specious, or course, but it will have its weight. It can be handled in a way to make it appear that the governor is trying to trample on the magna charta itself, and he will find it exceedingly difficult to make it appear otherwise, especially in the minds of people who do not want to believe in the sincerity of his

As we have already said, the gov ernor has our sincere sympathy in this matter. We do not think he is after getting bills so much as he is after vindicating the law. We think his implied suspicions are well grounded and we think his motives are pure; but as we have made clear, it is excan accomplish any good along the line he is now proceeding.

At the same time, considering the vastness of the problem with which he is wrestling and the tremendous importance of it, he is not to be censured for trying to reach some satisfactory solution.

Greenville Piedmont, Saturday: In spite of rain this morning several hundred people gathered at the Judson mill picnic ground to hear Cole L The crowd was very enthusiastic and cheered the ex-governor repeatedly. His general subject was lib-erty. Not so much personal liberty but the liberty that is secured through wise and unselfish legislation. He insisted that the time has come when public officers must be elected on the basis of merit and not on the basis of personal regard. He touched upon the present banking system of paying interest in advance and said that it was obbing the man who was forced to borrow money. The gist of his speech was that the workingman is a part of our democracy and has the right to exercise his powers in his own behalf, through the ballot. He pointed out to the people that honorable and wise can only be secured hrough wise legislation and that wise legislation must come from a wise and impartial exercise of the right vote. For several weeks the offcers had known that Wyatt was going by the name of J. E. Woods. Until the past Mr. and Mrs. W. T. Dunlap of Char-lotte, visited Mrs. J. S. Mackorell in few days they did not know his exact whereabouts. At last having obtained all necessary information Deputy Quinn left Yorkville Friday afternoon for the little town of Tren ton, which is the capital of the wild and mountainous county of Dade, in Georgia. He arrived at his destina tion Saturday and informed Tatum of that county, that J. E. Woods, who ran a small farm about three miles out from the little town was J. R. Wyatt, who was wanted in

iail breaking. Sheriff Tatum was surprised. He had heard of Wyatt. In fact, he had a picture of the man, a complete des-cription of him and a notice of the reward which Sheriff Brown had offered for his capture. However, he knew Wyatt, alias Woods well. Woods' farm joined his own and he was even then dealing with Wyatt, alias Woods ined his own and he was even for the purchase of his farm. He had have a total of only seven acres of cotnever connected Woods with Wyatt

Deputy Quinn was anxious that the Georgia sheriff go with him at once to arrest Wyatt; but that officer sug-gested that no action be taken until Sunday when he, being on good terms with Wyatt, would go out and arrest him without exciting the least suspicion. Deputy Quinn agreed and the next morning Sheriff Tatum arrested Wyatt, who denied that he had ever been in York county, South Carolina. Upon being greeted by Deputy Quinn in Trenton, he confessed that he was the man wanted and readily agreed to come without requisition. Sunday afternoon he was brought

Fourth in Rock Hill. Hundreds of people were in Rock

Hill yesterday on account of the Independence Day celebration in that city, although the threatening attitude of the weather prevented other hun-dreds from being in attendance. The principal feature of the morning's exercises was an address by Congress-man A. F. Lever, who confined his re-marks to a discussion of the high cost of distribution of farm products. An attempt was made to carry out the published programme of the day and the barbecue was held on the fair grounds together with a few horse races, the principal events being won by horses belonging to Mr. Burton Massey of Rock Hill.

Celebration at Blacksburg.

A crowd estimated at more than 2,000 persons attended a "Fourth of July" celebration at Blacksburg Saturday. Good order was maintained throughout the day and rothing transpired to mar the pleasure of the occasion. The features of the occasion were addresses by Special Judge Chas. Carroll Sims of Barnwell, Congressman D. E. Finley of Yorkville, and Hon. W. F. Stevenson of Cheraw. Two games of baseball were also played be-tween the Blacksburg and Yorkville eams. Blacksburg won the first game by a score of 5 to 4. The second game went for eleven innings, the score being 10 to 10. A home run by Bert Smith of the Yorkville team decided the contest—11 to 10. The Hickory Grove cornet band rendered good music throughout the day.

Got a Heavy Jar. Yorkville people who were in Blacks-burg Saturday on account of the Independence Day celebration in that place tell of a peculiar and what might have been serious, accident to a white man who was on the early west-bound train of the Southern. The fellow, who appeared to be intoxicated, got off the train at Blacksnot noticing a train which was passing on an adjacent track. Before ne could be warned of his peril, he had been struck by a protruding obstacle on one of the cars, his jaw getting the full force of the blow. Medical as-sistance was summoned and in a little time the man was walking around ap-parently as well as ever. He is said o have told some people who inquired about the accident that had it not been for the several drinks of liquo which he had taken he would certain-

ly have been killed. The Challenger Defeated.

One of the most interesting features of the celebration in Rock Hill yester day was a checker match played for the championship of the county. I will be remembered that several weeks ago, Enos Greer, aged 17 years, weeks ago, Enos Greer, aged 17 years, son of Mr. R. F. Greer of Fort Mill, issued a challenge to anyone in the county to engage him in a checker match. A match finally arranged be-tween Mr. Greer and Messrs. G. M. Carroll of Yorkville No. 1, and J. B. Pegram of Yorkville. Mr. Carroll de-feated the challenger three, while five other games played resulted in draws. Mr. Greer defeat ed Mr. Pegram in every game played. Several other checker players were on hand but none were in the class of those above mentioned. Mr. Green has announced his intention of coming to Yorkville tomorrow for the purpos of again playing Mr. Carroll
